Address: 3045 10TH AVE, HELENA, MT 59604									
VIOLATION SITE				FITS Site Name:					
Incident Site Name: LAKE CO HIGHWAY 33 MM 5									
Incident County: LAKE									
Detailed Site Location: T: 23N R: 19W SEC: 33					Latitude: 47.71417 Longitude: -114.04583				
Contact Name: WILL, DEBRA M.								Phone: (800)544-4613	
Contact Address: PO BOX 30197, 1311 TAYLOR PL					City:BILLINGS			State: MT	
Facility ID:			Permit:			DOT:			
Location of Complaint/Spill: Highway 35, MM 5, Lake County									
Near Finley Point turnoff, east of Polson									
DESCRIPTION OF INCIDENT				Date Observed: 04/02/2008					
Describe Complaint:		<p>Amy Steinmetz took the original report that stated: A semi-tanker flipped on its top and leaked 5,000 to 6,000 gallons of gasoline onto the roadway and surrounding soil. Flathead Lake is approximately 500 yards from the spill site. No sheen or indication of impact to the water has been detected so far. A rock formation lies between the spill site and the lake and may be containing the spill.</p> <p>A tow truck uprighted the tanker-trailer. Highway 35 was closed after the spill occurred, but as of approximately 20:00 on 4/2/2008, the road was to be reopened for one-lane traffic. Tetra Tech was hired to do environmental cleanup. Excavation of impacted soils was to begin 4/3/2008 AM. DES and Tetra Tech were coordinating to sample domestic wells in the release area, and Flathead Lake is periodically being checked for a sheen. A more exact volume of product lost will be determined.</p>							
Impact To: Soil									
Pollutant Type: Gas				Amount: 6403			Unit: GALLONS		
Initial Actions/Recommendation:		EC coordinated with appropriate entities and DEQ is taking the lead. The EPA contact is Craig Meyers in Denver, 303-312-6510. The tribal contact is Mike Durglo, 883-2888 X7227.
